Size of Stitch Pattern and Needle Position

You can change the size of stitch patterns as well as the needle position. HZL-Kseries has 15 needle positions.

Two Automatic Lock Stitches

HZL-K series can automatically sew a lock stitch at the beginning and end of sewing. There are two types of lock stitch, reverse stitch and reinforcement stitch.

Buttonhole

HZL-Kseries sews the buttonhole automatically according to the size of the button.

Needle Threader

The needle threader easily threads the needle and allows you to start sewing quickly.

Thread Tension

Normally, if the dial is set to "Auto", it is suitable for most fabrics.

Easy to Start Sewing Thick Fabrics

Press the black button of presser foot to make the presser foot parallel to the throat plate. This makes easy to start sewing thick fabrics.

LED Light

LED light brightens the needle area for a better material handling. LED light will not heat up even during long operations.

Other Features

- Free Arm
- Drop in Bobbin
- Drop Feed for Free Motion Quilting

Options

- Wide Table
- Smooth Presser Foot
- Even Feed Presser Foot etc.

JUKI ECO PRODUCTS

The HZL-K series is an eco-friendly product which complies JUKI ECO PRODUCTS standards for protecting the environment.

●The sewing machine complies with the "JUKI Group Green Procurement Guidelines" on the use of hazardous substances, which is stricter than other restrictions, such as those of the RoHS Directive.

For details of JUKI PRODUCTS, refer to:
http://www.juki.co.jp/eco_e/index.html

*The RoHS Directive is an EU Directive limiting the use of 6 hazardous substances (lead, hexavalent chromium, mercury, cadmium, PBB and PBDE) in electrical and electronic equipment. The Juki Green Procurement Guideline is the voluntarily established criteria to eliminate not only the aforementioned six substances, but also other ones which also adversely affect the environment.
