QUILTERS CREATIVE TOUCH FOR THE JUKI QUILT VIRTUOSO PRO NOW AVAILABLE!

QuiltMotion is an automated quilting system powered by Quilter's Creative Touch software for use with the Juki TL-2200QVP. You design the quilt and the QuiltMotion will automatically and accurately quilt it! Quilters Creative Touch for the TL-2200QVP allows you to design and edit blocks, pantographs, borders and full quilts. You can even create your own patterns or trace them from photographs. In addition, there is a library of 200 quilt ready patterns included for you to enjoy. The TL-2200QVP together with QuiltMotion and Quilter's Creative Touch make it possible for you to bring professional, automated quilting to your home!

Within the Juki Quilting Suite are the machines to help you meet your greatest quilting challenges. The precise stitching and quality driven performance can only come from a manufacturer who puts their heart and soul into sewing machine excellence. Juki has been producing industrial sewing equipment for garment, home textile and upholstery designers and manufacturers for over 65 years. We know the value of a good stitch and we understand the joy of creating something very special. Whether you are a seasoned pro striving to meet your personal goals or a beginner yearning for the thrill of quilting, you will feel at home with JUKI!
