Extension module ISM 3900 offers a solution to efficiently use space in the warehouse by simply and quickly increasing storage capacities.

Features

The expansion module ISM 3900 can be connected to the back of the ISM 3600 to store more than 11,000 reels.

Automated storage (insertion and extraction) saves valuable time

Operation via ISM 3600

Cases with flexible height adjustment from 8mm to 88mm

Space-saving solution by optimal usage of storage space

MSD management concurrently with ISM 3600

Integration of existing storage systems into the JUKI storage management system and production planning - regardless of whether it is another automated storage system or a high-bay warehouse

Set of three sub-models available (for 7 inch, 15 inch and combination of 7 + 15 inch)

Any combination of ISM 3600 and ISM 3900 models is possible (ISM 3600 is mandatory for operating reasons)

ISM 3900 is used by connecting to the back of ISM 3600

Connect 3 ISM : 11,240 reels / All 7"only

Connect 2 ISM : 7,430 reels / All 7"only
