- 2. New Medium-term Management Plan for 2023-2025 (P. 13)**

1. Full-year results for FY2022 / Full-year forecast for FY2023

1.1 Full-year results for FY2022

- **Net sales:** Net sales grew by 16.0% year-on-year (YoY), falling short of the original plan. Sales were held back by sluggish capital investment demand linked to China's zero-COVID-19 policy and postponements in purchasing in Q4 due to the worsening foreign currency situation in emerging countries in Asia and elsewhere.
- **Ordinary profit:** The weak yen had a positive effect on sales but increased the burdens from costs and expenses incurred overseas. JUKI continued to make strategic investments to capture the demand recovery, but the delays in raising product prices to meet the increased cost burdens and stalled progress in improving JUKI's portfolio of value-added businesses resulted in a 66.2% decline year-on-year.

1.2 Results by Segment -Net Sales-

■ Sewing Machinery and Systems

Net sales increased mainly in the Asian market as a result of JUKI's efforts to capture the demand recovery in the apparel market and to improve the supply chain. The rate of sales growth, however, was unchanged, at 26.5% year-on-year, mainly due to the impact of China's zero-COVID-19 policy and postponements in purchasing in Q4 linked to the worsening foreign currency situation in emerging countries in Asia and elsewhere.

■ Industrial Equipment and Systems

Net sales of electronics assembly & systems declined due to sluggish investment demand linked to China's zero-COVID-19 policy. The group business, which engages in contract businesses mainly for the domestic market, reported steadily firm net sales, due in part to increased investment demand for equipment to cope with customers' supply chain fragmentation. As a result, overall net sales for industrial equipment and systems business declined by 1.5% year-on-year.

■ Industrial Equipment and Systems

Ordinary profit declined by 32.2% year-on-year due to a significant decline in net sales of electronics assembly & systems in the second half and cost increases in JUKI's ongoing strategic investments.
