○ For your gracious time

~HZL-G series Debut~

HZL-G110

Full sized Computer-controlled Sewing Machine

**Instruction
DVD
Included**

○ Make your handiwork as you please!

◆ Perfect Stitch Quality

Box feed Industrial Sewing Machine Technology

In order to provide beautiful seams and outstanding feed performance, JUKI adopted box feed system. The conventional feed mechanism is oval motion. On the other hand, the box feed moves the feed dog in a box motion. This eliminates material shrinking and shifting.

No fabric shrinkage even sewing on extra light weight materials.

Thick handle can be sewn with ease.

Powerful Feeding

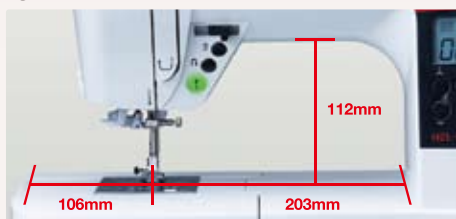

HZL-G series has powerful feeding thanks to the improved presser foot construction. Heavy material projects, such as hemming denim jeans, can be sewn with ease!

3-12-3 layers of denim.

◆ Wide Sewing Space

HZL-G series has a wide underarm space. It is more enjoyable and comfortable to work with large projects.

◆ High Quality Buttonholes

HZL-G series sews beautiful buttonholes regardless of the type of material. 8 types of buttonholes are available for your needs.

◆ Automatic Needle Threader

The Automatic Needle Threader easily threads the needle without eyestrain and allows you to start sewing quickly.

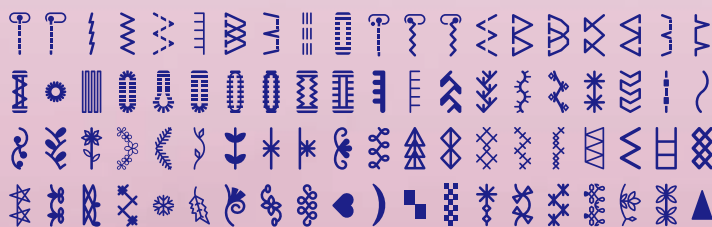

◆ LED Lights

LED lights brighten the needle area for better material handling. LED lights will not heat up even during long operations.

180 Patterns include 1 Font of Letters

Example of Stitch Patterns

○ Option Attachment Kit for HZL-G series

Heavy User Kit (Part No.40091175)

1. Rolled Hemming Presser Foot
2. Presser Foot with Guide
3. Binder Presser Foot
4. Button Attaching Presser Foot
5. Cording and Embroidery Presser Foot
6. Invisible Zipper Presser Foot

Creative Set (Part No.40108163)

1. Applique Presser Foot
2. Cording and Embroidery Presser Foot
3. Pearl Attaching Presser Foot
4. Cording Presser Foot
5. Presser Foot with Guide
6. Open Toe Presser Foot
7. Bobbin x 5 sets

JUKI ECO PRODUCTS

The HZL-G series is an eco-friendly product which complies JUKI ECO PRODUCTS standards for protecting the environment.

● The sewing machine complies with the "JUKI Group Green Procurement Guidelines" on the use of hazardous substances, which is stricter than other restrictions, such as those of the RoHS Directive.

For details of JUKI PRODUCTS, refer to:
http://www.juki.co.jp/eco_e/index.html

*The RoHS Directive is an EU Directive limiting the use of 6 hazardous substances (lead, hexavalent chromium, mercury, cadmium, PBB and PBDE) in electrical and electronic equipment. The Juki Green Procurement Guideline is the voluntarily established criteria to eliminate not only the aforementioned six substances, but also other ones which also adversely affect the environment.
