Various Stitch Patterns
To Unleash
Your Creativity!

3-Thread Flatlock
Use this stitch as an accent on clothes, interior items and accessories.

3-Thread Rolled Hem
The fabric edge is rolled, then covered with thread.

3-Thread Narrow Overlock
This basic stitch of overlock machine prevents fabric from fraying.

2-Thread Overlock
Simply sew fabric edges with 2 threads to prevent fraying.

Frill 3-Thread Rolled Hem With Dif. Feed
Uses 3-thread rolled hemming and the differential feed on stretch fabrics to create stylishly designed articles.

4-Thread Overlock
Uses 3 needles and 4 threads to securely sew together knitted fabrics.

Optional Attachments
- Blind Stitch Presser Foot
- Gatherer Presser Foot
- Cording Presser Foot
- Sealing Presser Foot
- Piping Presser Foot

1004(C)
Air-Supported Threading!
Create the Look of a Professional Finish!

Convenient Threading With the Easy Thresher

Using the new easy thresher feature, easily thread the machine from the threading hole to the looper with the power of a strong whoosh of air sent from the electric motor. This amazing function dramatically affers upper and lower looper threading.

Automatic Needle Thresher

Quickly thread the needle! With the automatic needle thresher, the needle is threaded in 3 easy steps.

Quiet Operation

The sound reducing design minimizes the operating noise and the unit sews with less vibration.

Other Useful Features

- Automatic rolled hemming
- Adjustable presser foot pressure
- Option to deactivate upper knife
- Cutting with adjusting dial
- Safety feature preventing operation when the presser foot is upper position or the cover is open.
- Thread trimming blade for easy thread cutting

Adjustable Differential Feed

Beautiful Sharp Curve

Upper Looper Converter 2×3-Thread Conversion

Wide Throat Area

LED Sewing Light

Waste Collector

Even with easily stretched fabrics such as knits and georgette, create beautifully finished seams by adjusting the differential feed. Adjustments can even be made while sewing.

The distance between the needle and knife is 9.5mm (conventional model: 15.5mm), allowing you to sew beautiful inside curves.

Switch to 2×3-thread sewing simply by pushing the 2×3-thread changer attachment to the left, making this operation even easier.

The height of the throat is 72.4mm. Due to this height, the usability of the work space improved infinitely.

The needle area is brightly illuminated. The long-life, energy-efficient and eco-friendly light will not heat up, even after a long period of use.

Provided as a standard accessory, the waste collector catches cut-off fabric and is useful for keeping the area tidy.
