*Full sized Computer-controlled Sewing Machine with  
Knee Lifting Lever*

# HZL-G320

180 Patterns include 1 Font of Letters

Example of Stitch Patterns

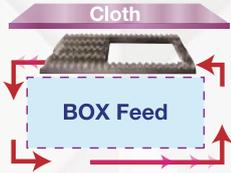

# ○ Make your handiwork as you please!

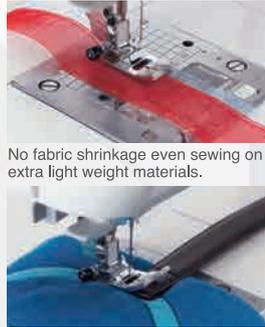

## ◆ Perfect Stitch Quality

### Box feed Industrial Sewing Machine Technology

In order to provide beautiful seams and outstanding feed performance, JUKI adopted box feed system. The conventional feed mechanism is oval motion. On the other hand, the box feed moves the feed dog in a box motion. This eliminates material shrinking and shifting.

As the feed dog is in contact with the material longer, the machine feeds the project better.

No fabric shrinkage even sewing on extra light weight materials.

Thick handle can be sewn with ease.

## Powerful feeding

HZL-G320 has powerful feeding thanks to the improved presser foot construction. Heavy material projects, such as hemming denim jeans, can be sewn with ease!

3-12-3 layers of denim.

## ◆ Knee-Lifting Lever

Presser foot can be raised and lowered by the knee-lifting lever. Presser foot lift is up to 12mm when the lever is used.

## ◆ Auto Thread Trimming Function

One single action automatically trims both upper and bottom threads at the same time. It eliminates waste of your thread and time!

## ◆ Wide Sewing Space

HZL-G320 has a wide underarm space. It is more enjoyable and comfortable to work with large projects.

## ◆ High Quality Buttonholes

HZL-G320 sews beautiful buttonholes regardless of the type of material. 8 types of buttonholes are available for your needs.

## ◆ Automatic Needle Threader

The Automatic Needle Threader easily threads the needle without eyestrain and allows you to start sewing quickly.

## ◆ Quick Bobbin Preparation

Just follow the guide and it is not necessary to pull up the bobbin thread.

## ◆ Included Presser Feet

1. Standard Presser Foot
2. Overcasting Presser Foot
3. Zipper Presser Foot
4. Blind Stitch Presser Foot
5. Manual Buttonhole Presser Foot
